Growing suitability

For each type of vegetable the following symbols are used to denote whether the particular variety is best grown in the greenhouse or outside.

-  Suitable for greenhouse cultivation
-  Suitable for open ground cultivation
-  Can be grown outdoors under certain conditions - some form of protection is recommended

Summer flowers

For an initial orientation there are symbols for:

-  annual
-  biennial
-  perennial
-  The scissor symbol denotes all those varieties that make good cut flowers. The statement: "Ideal for cut flower growers." indicates cut flower varieties which are particularly suited to the cut flower market, being long-lasting in the vase and having long stems.

Seed production /multiplication

The exact origin of each variety of vegetable is given - on which farm the variety has been produced or who the supplier is (for instance another organic seed company). Who the abbreviation refers to can be found in the portrait of our producers in the main catalogue from page 117.

Tip for cultivation

Since the early growth phase of the kohlrabi ends with the formation of the third true leaf, the tendency to shoot and flower can occur if temperatures fall too low. After starting at 16-18 °C, temperatures should not fall below 10 °C at night and be kept between 12-15 °C during the day.

Editorial highlights

Between the variety descriptions you will find interesting background information about the species of vegetable, their breeding and the varieties.

Maintenance breeding

If a variety has no named breeder it will be a variety that is no longer protected but which is grown and maintained by members of the Biodynamic and Organic Seed Initiative Group.

If the maintenance breeding is carried out on biodynamic land it will be indicated with the abbreviation 'b-d EHZ', if it is done on organic land it will be indicated with 'b-o EHZ'.

General Terms and Conditions

§ 1 Scope

The following terms and conditions apply to all orders, offers and contracts (whether provided remotely, verbally or in writing) made with consumers and business customers outside of our online shop. Additional conditions apply to regular commercial traders.

A consumer is defined as a natural person who makes a legal transaction that is primarily of neither a commercial nor personal business nature. A business customer is a natural or legal person or society who makes a legal transaction which is part of their commercial or personal business activity.

For business customers these terms and conditions are also taken as applying to any subsequent trading arrangement without need of further reference to them from us. A different or extended set of terms and conditions adopted by the business will not be accepted; they can only form part of the contract with our expressed agreement. The General Terms and Conditions apply to all legal transactions entered into by the Bingenheimer Saatgut AG. These terms need to be accepted by the buyer at the latest on receipt of the goods. Any deviation from this is only valid if expressly agreed in text form. We will not supply customers who promote a hatred of foreigners, nationalism or the glorification of violence. We reserve the right in such cases to draw on the legally enshrined principle of contractual freedom to terminate the contract.

§ 2 Concluding of contract, delivery times, carriage

(1) The display of products in our catalogue does not represent a firm offer on our part. Only once you as a customer have placed an order is there a binding commitment as per German Civil Code 145. Your order is confirmed on its receipt by post or telephone. The sale contract accompanies the delivery of the goods. This also serves as our declaration of acceptance.

(2) We generally deliver to consumers within 4-5 working days and at most within 21 days following receipt of the order. Commercial customers usually receive their order within 2-3 working days or as requested at the time.

(3) We cannot accept PO Boxes or c/o addresses as billing addresses. They can however be used for deliveries.

(4) Fixed rate charges for postage and packing
For all orders with a delivery address within Germany there is a standard delivery charge as listed in below table. These charges apply to all further orders the same season. Where a seed order has to be sent in two parts no further delivery charge is made. Plant material is priced separately. The prices for deliveries of planting material are valid up to a product weight of 25 kg. For an order weight from 25 to 50 kg, 2 packages will be packed and thus double shipping costs from the table will be charged, etc.

Product	Delivery charge net
Seeds, books, tools	Packages with product weights ≤ 0.8 kg and a value < 250 € 4,35 €
Seeds, books, tools	a) Packages with product- weights > 0.8 kg b) Packages with a value > 250 € and product- weights ≤ 0.8 kg 7,65 €
plants and onion sets	7,65 €
Shipping flat rates valid as of 01.11.2024	

(5) If the delivery of the goods fails for reasons for which the customer is responsible, the customer bears the costs incurred as a result.

(6) Please refer to §5 (1) to (4), which also apply to the shipping costs.

(7) For partial deliveries of one order and delivery within Germany we charge delivery costs only once.

(8) Plant material like onion sets, garlic cloves, peonies and flower bulbs contain moisture to a certain extent. In order to preserve the quality of our seeds we cannot ship plant material and seeds together. The date for shipping is determined by the time of the harvest and it

may vary depending on weather conditions. Plant material is sent separately and additional delivery costs are charged. Please note that we reserve the right to check and, if necessary, cancel onion/garlic orders with delivery addresses abroad, depending on the country of delivery. Please note that we ship peonies and flower bulbs only to delivery addresses in Germany.

Express delivery arranged by telephone is invoiced according to actual costs.

Payment on Delivery: If seller and buyer agree payment on delivery the buyer must pay the cost involved. At least 14.50 euros will be added to the invoice.

(9) The delivery contract starts at the seller's site. Place of delivery is seller's place of business. In the case of business customers the transfer of responsibility occurs when goods are collected by the delivery service.

§ 3 Usage

All seeds offered are not suitable for consumption. With the exception of cress, the seeds are also not suitable for sprouting, especially if the sprout and seed are consumed as a single unit. Cress and barley used for the product 'Smoothie-Gras' are subject to laboratory microbiological examination.

§ 4 Orders from abroad

(1) We deliver only to private customers within the EU countries and the EFTA countries (Iceland, Liechtenstein, Norway, Switzerland) and Vatican State.

(2) Commercial customers in the EU:
Commercial customers within the EU need to provide their VAT number with their order. Where none is given the sales tax applicable in the country of delivery will be added to the price. For shipments within the EU to customers with a valid VAT certificate we are legally required to generate a proof of delivery. Customers are bound under the terms of the purchase contract to fill in and return the receipt form provided. Any additional delivery costs incurred will be added to the invoice.

(3) Commercial customers from outside the EU:
Shipments to destinations outside the EU are possible only within the EFTA countries (Iceland, Liechtenstein, Norway, Switzerland) and Vatican State and with prior agreement. Special conditions apply. The extra administrative costs and any additional charges are passed on to the buyer.

Full payment is required prior to delivery. Transfer payments from abroad must be made in Euros. Any additional transfer charges will be added to the invoice.

The delivery contract begins at the seller's site. Place of delivery is seller's place of business. The commercial buyer carries the transportation risk.

(4) Costs of delivery abroad:

The following table shows the net cost of delivery to your country.

Countries	Packages with product weights ≤ 0.8 kg and a value < 250 €	a) Packages with product- weights > 0.8 - 25 kg b) Packages with a value > 250 € and product- weights ≤ 0.8 kg
Belgium, Netherlands, Luxembourg	7,65 €	19,25 €
EFTA and other EU-countries (except Canary Islands)	8,75 €	21,45 €
Canary Islands	8,75 €	35,20 €
Shipping flat rates valid as of 01.11.2024		

(5) Please refer to §5 (1) to (4), which also apply to the shipping costs.

(6) The prices are valid for seeds, books, tools and plant materials with a product weight up to 25 kg. For an ordered weight from 25 to 50 kg, two packages were packed. So the delivery costs are twice as much calculated from table etc.

- (7) If the customer specifies a particular shipping provider, it may result in higher shipping costs. We reserve the right to charge the customer for these additional costs in relation to our flat rates stated here.
- (8) Delivery outside the EU: Depending on the type of crop, additional costs or fees for the issuing of a phytosanitary certificate may be charged for imports into some countries. These charges currently (09/2023) amount to 50 euros, which are to be paid by the customer. At a later date, higher or lower costs may be incurred. Do not hesitate to contact us if you want to know the exact amount of the charges at the time of your order.

§ 5 Prices and payment conditions

- (1) All prices are subject to the applicable sales tax rates in the respective country of delivery. The VAT rates are prescribed by law. Each new price list renders the previous one invalid. Printing errors excepted.
- (2) The price and/or shipping list is valid until the next price list is published. We reserve the right to adjust prices at short notice for goods subject to statutory pricing without separate information (e. g. books).
- (3) Due to the very dynamic developments of shipping prices, we reserve the right to adjust our flat-rate for shipping costs appropriately if these costs change. Our current shipping costs can be viewed online at any time under www.bingenheimersaatgut.de/en/shipping-terms
- (4) An updated price list will be sent to the customer by Bingenheimer Saatgut AG when it is published and will replace the previous one. If we have the customer's e-mail address, this notification will be sent by e-mail.
- (5) Unless otherwise agreed all invoices must be paid in full upon receipt.
- (6) New customers with orders worth more than 200 Euros are required to pay in advance.
- (7) In case of special reasons (e.g. announcement of insolvency, delayed payments in the past), we are authorised to demand advance payment from our regular customers.
- (8) Invoices may be sent by mail or e-mail at our discretion. The customer agrees to receive invoices electronically. Electronic invoices will be sent to the customer by e-mail in PDF format to the e-mail address provided by the customer for the purpose of receipt.

§ 6 Reservation of Ownership

We retain ownership of all goods until full payment is received. Where business customers are concerned: We reserve ownership rights over the goods until all claims are settled as part of an ongoing business relationship. They can dispose of the reserved goods as part of their business; the income arising from this subsequent sale shall be assigned to and accepted by us in advance – whether or not new items are included with the reserved goods – for the amount invoiced. They retain the power to resist the claim, but we can also demand payment should they not honour their debts.

We will make the reimbursement using the same means of payment as you used for the initial transaction, unless you have expressly agreed otherwise; in any event, you will not incur any fees as a result of such reimbursement. § 8 Liability

We accept full liability for any damage caused by ourselves, our legal representatives or our agents.

- Regarding harm to life, body or health
- Wilful or negligent dereliction of duty
- Agreed promise of guarantee
- To the extent that it is commensurate with the laws on product liability

When significant infringements of the contractual obligations occur and

affect the way the contract is implemented and the trust of contract partners (cardinal duties) and are found to be due to negligence on the part of ourselves, our legal representatives or our agents, the liability we carry is limited to the amount originally estimated when the contract was concluded.

Claims for damages beyond this are excluded.

§ 9 Warranty

Unless otherwise expressly agreed full statutory warranty rights apply. For consumers the warranty is limited to one year following delivery of the goods.

For traders any claims must be made within one year of the transfer of risk; the statutory claim period (as determined by Act 478 BGB) remains unaffected.

In accordance with Act 377 HGB: Where both parties consider the purchase a trade transaction, it is up to the buyer to inspect the goods as soon as possible after delivery and should they prove defective to immediately inform the seller. Failure to do this implies acceptance of the goods unless there is a defect which could not be detected on inspection. Where such a defect is subsequently discovered the information must be passed on immediately; otherwise the goods will be deemed accepted despite the defect. A timely submission is sufficient to secure the purchaser's rights. If the seller deliberately conceals the protection provided by these rules cannot be invoked.

For traders/business customers, the only valid descriptions of varieties and products are those provided by the producer and which are included in the contract; we bear no liability for public statements and other promotions made by the producer. The variety descriptions do not constitute a guarantee. All the quality data supplied by the seller concerning germination, technical and genetic purity as well as seed health are based on its own tests. The quality data applies solely to the moment when these tests were carried out by the seller. A direct connection between these results and those experienced by the buyer cannot be assumed. Results are dependent on site, cultivation and / or climatic conditions. The product information contains neither a direct nor implied statement of consistency in the seed. Indications as to resistance levels accord with standard variety descriptions. They do not constitute a guarantee.

Where the goods supplied to business customers turn out to be defective we may decide to either remove the defect or offer a replacement.

Insofar as we are obliged to pay compensation for damages our liability towards entrepreneurs is limited to the value of the goods of the seeds.

The limitations and time limits given above do not apply to claims for damages caused by us, our legal representatives or our agents.

- Regarding harm to life, body or health
- Wilful neglect or gross dereliction of duty and fraud
- When significant infringements of the contractual obligations occur and affect the way the contract is implemented and the trust of contract partners (cardinal duties)
- Agreed promise of guarantee
- To the extent that the product liability law applies

§ 10 Returns policy for consumers

(1) The satisfaction of our customers is our primary concern. Please get in touch with us first before making any returns. The returns cost is carried by the buyer. Please bear in mind that any seed returned cannot generally be sold on since the unknown transport and storage conditions of the seed could change its germination capacity.

(2) When making returns please take care to prevent damage in transit. We recommend the use of cushioned packaging otherwise seed can be damaged during handling.

Returns for traders

There is no returns policy for traders. To return any defective goods please get in touch.

§ 11 Commercial multiplication

The multiplication of seeds is strictly regulated. The multiplication of Kultursaat varieties – in the spirit of using goods held as commons – requires an appropriate agreement with Kultursaat e.V. This information must be clearly communicated to any further buyer of these goods.

§ 12 Intellectual property and users' rights

The buyer may not use trademarks, symbols, pictures, trade descriptions and designs of Bingenheimer Saatgut AG and Kultursaat e.V. without express written permission. This must be clearly communicated to any subsequent buyer of these products.

§ 13 Quality assurance and cultivation guidelines

(1) Bingenheimer Saatgut AG supplies exclusively organic seed. The original seed (Elite seed) primarily comes from biodynamic or organic maintained stock. The varieties being offered have been developed using traditional breeding methods such as for example selection, mass selection or crossing. The varieties bearing the Kultursaat logo have in addition been bred using biodynamic criteria. All the varieties are open pollinated. In producing seed we take care to exceed the statutory planting distances between related varieties. This and other measures such as insect proof greenhouses helps to prevent unwanted hybridisation.

The measures taken to assure quality in the production of seed will in future help to prevent the unwanted crossing with genetically modified organisms. Organic seed must remain free from the smallest traces of hybridised GM plants. We make every possible effort to achieve this goal.

(2) Seed is alive! Plants live in relationship to their surroundings. They react to differing environmental conditions and adapt individually to them. In order to meet the seed and variety requirements of growers we have developed a comprehensive system of quality management which is under continual improvement.

(3) The descriptions, recommendations, pictures and illustrations used for promotion in the catalogue, website, flyers or brochures, arise out of our experiences and the trials carried out by breeders and customers. They are only for purposes of comparison. Plant development can vary considerably depending on factors such as climate, weather, planting time etc. Buyers need to decide for themselves whether the chosen varieties suit the regional conditions. The germination capacity indicated on the seed packet is true for the moment of delivery.

§ 14 Information about Online Dispute Resolution

We are not obliged to appear before a consumer arbitration tribunal nor are we prepared to do so.
